

Firefox Adobe Flash Player Update Instructions

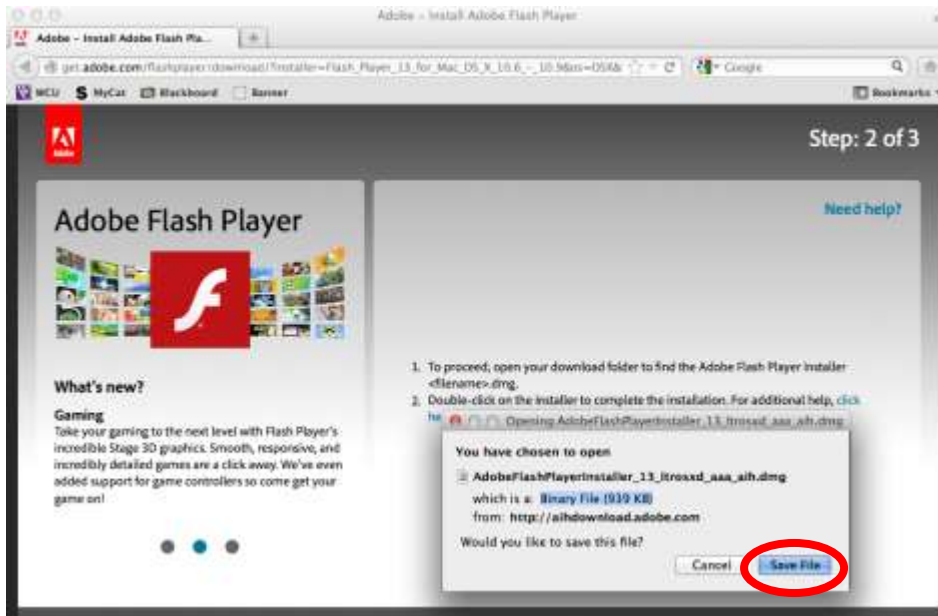

- Open Firefox.
- Copy and paste this link into Firefox's address bar:
 - <http://get.adobe.com/flashplayer>
- The following webpage should appear.

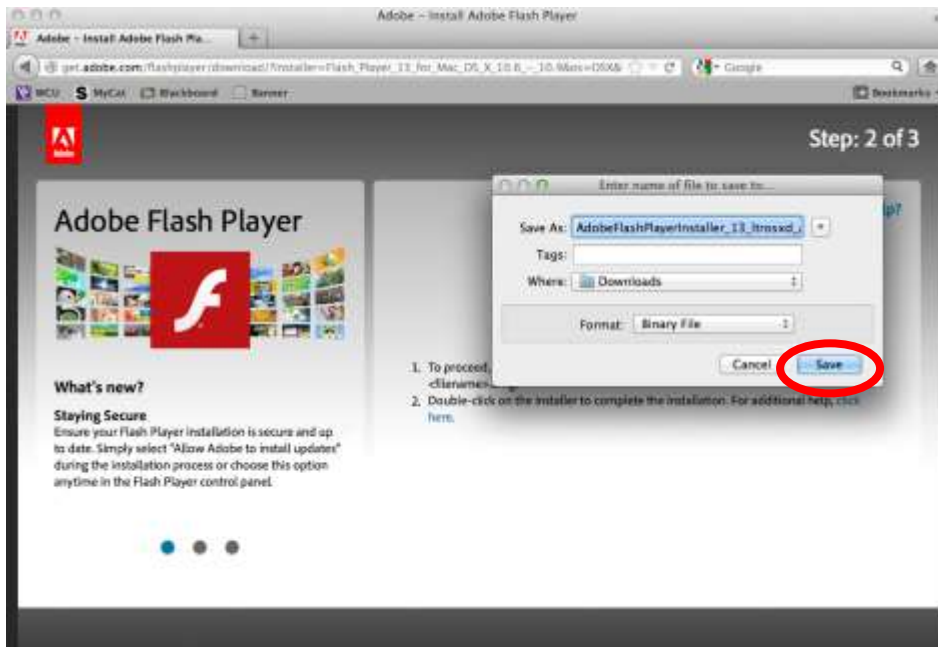

- Follow the screen shots below to update your Adobe Flash Player.
- Remove the checkmark under 'Optional offer'. Then click 'Install Now'.
 - If prompted to enter a username and password to complete installation. Please stop and call the IT Help Desk @ 227-7487.

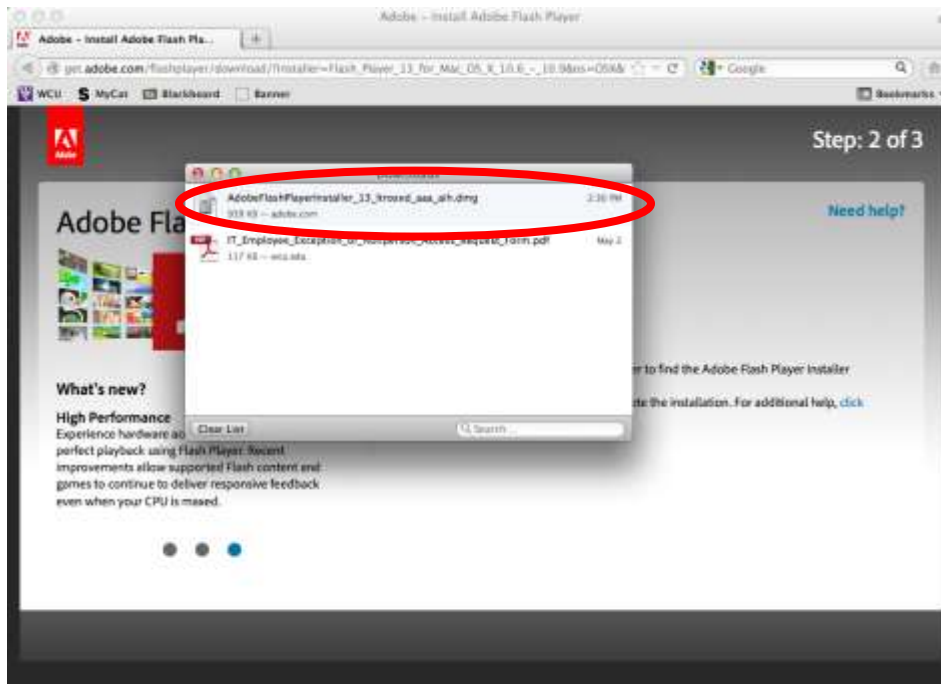

- The installer window will appear with a prompt. Select 'Save File'.

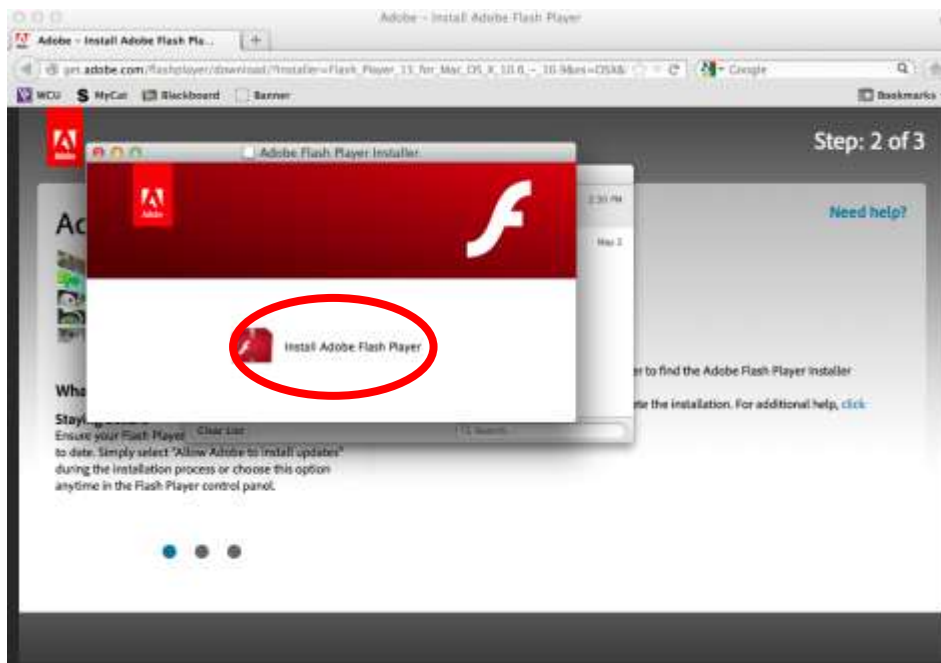

- A prompt will ask you to identify a location to save the file. Select 'Downloads', if not already selected, and click 'Save'.

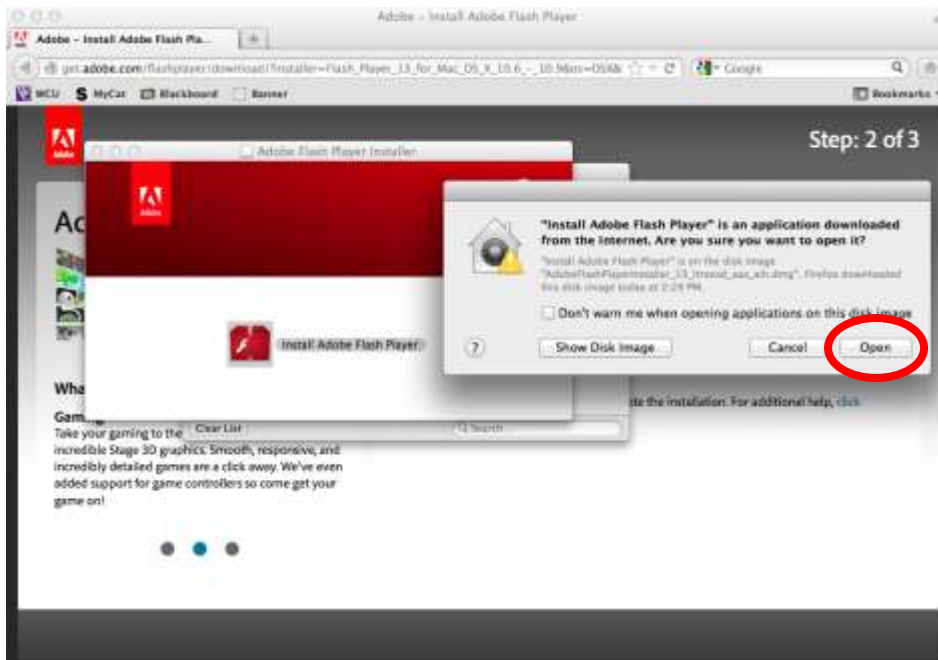

- 'Double click' on the Adobe Flash Installer application in the Downloads window.

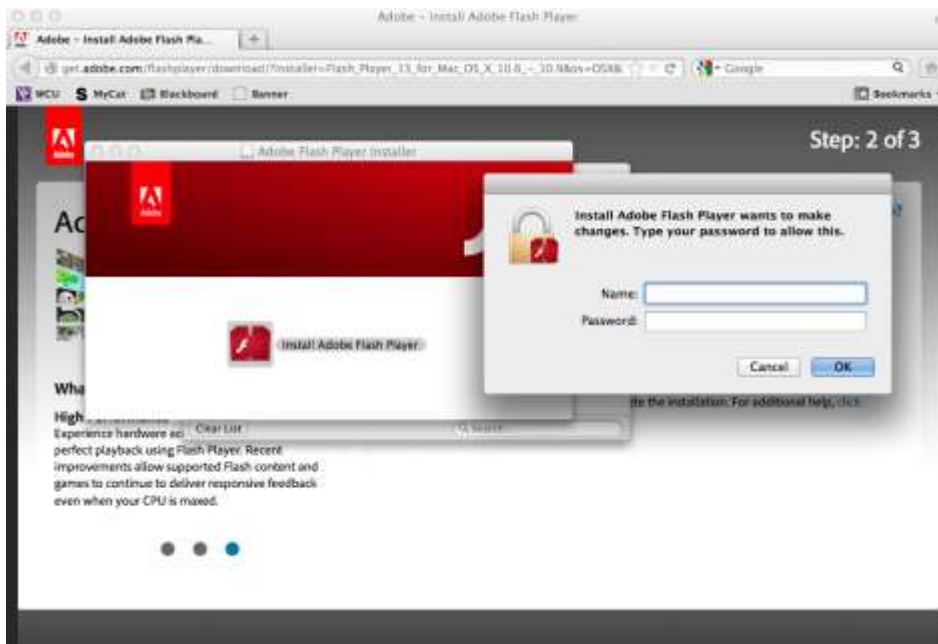

- Click 'Install Adobe Flash Player'.

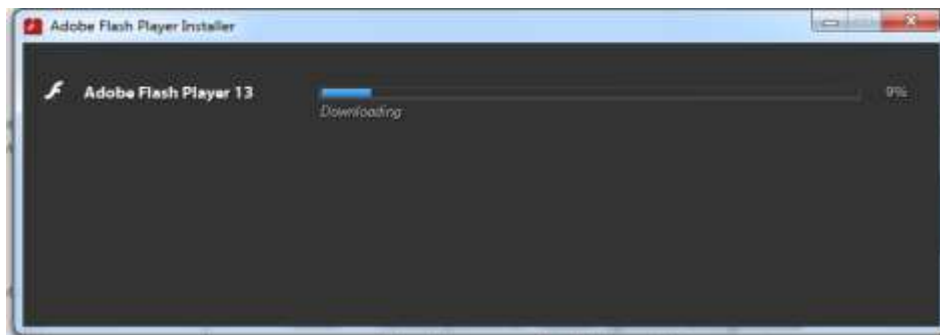

- A window will/may appear indicating this file was downloaded from the Internet. Click 'Open'.

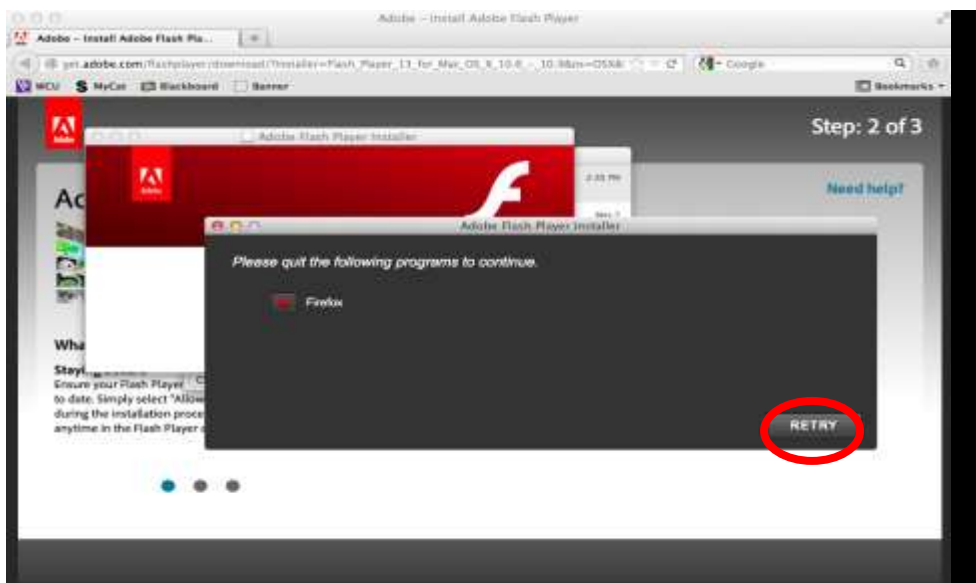

- Enter your username and password and click 'OK'. This would be the same information you use when logging onto your computer.

- The installer window will appear and display the download is in process.

- If the following window appears. Close Firefox and then click 'Retry'.

- Click 'Finish' and close the Firefox window if it appears.
